MESSAGE FROM THE CEO

Thank you for considering Tali Engineers. We founded this company on a simple conviction: mining, industrial and public projects in the DRC deserve a local partner that delivers safe, quality work on time and within budget.

This document presents our company, our capabilities and the projects on which our team has proven itself. We would be glad to discuss your next project with you.

Cedrick Tshikuta

Civil Engineer · Founder and Managing Director

Our mission

To provide the mining, private and public sectors with professional design and construction solutions, addressing the three issues clients most often face with subcontractors: safety and workmanship quality, meeting deadlines and budgets, and technical expertise.

GENERAL INFORMATION

Tali Engineers SARLU was founded in 2022 in Lubumbashi by Mr Cedrick Tshikuta, a qualified civil engineer with more than 15 years of professional experience in South Africa, Zambia and the Democratic Republic of Congo.

The company designs and builds for the mining, private and public sectors: engineering studies, site preparation, reinforced concrete works, roads and services, mining infrastructure, buildings and project management.

A 100% Congolese-owned company registered with the ARSP (the DRC's Subcontracting Regulatory Authority), Tali Engineers contributes to local content and welcomes all forms of technical and commercial partnership.

2022

Founded in Lubumbashi

15+

 years of management
experience

3

 countries: DRC, South
Africa, Zambia

100%

Congolese-owned

Sectors served

Mining and metallurgy

Industry

Water and sanitation

Buildings and housing

Public infrastructure

Safety

Prevention comes before speed,
on every site.

Quality

Documented QA/QC checks at
every stage.

Time and budget

Four phases, each approved with
the client.

OUR SERVICES AND SOLUTIONS

01

Engineering and design

- Structural analysis and design
- Foundations and reinforced concrete structures
- Construction drawings, bills of quantities and estimates

02

Site preparation

- Bush clearing and tree felling
- Setting out with a total station
- Earthworks and compaction

03

Reinforced concrete works

- Formwork, rebar fixing and concrete pouring
- Slabs, footings and ground beams
- Power float finishing

04

Roads, parking and services

- LDV, bus and truck parking, interlocking paving
- Gravel roads, kerbs and drains
- Pipes, culverts and manholes

05

Mining infrastructure

- Tailings storage facilities (TSF) and drains
- Geomembrane liners and HDPE welding
- Oil traps and fire hydrant systems

06

Buildings and project management

- Warehouses, workshops and smelter buildings
- Prefabricated housing
- Project management through to handover

Major project experience

Kamoa Copper, MMG, Rand Water: our team knows the standards of major clients.

Controlled quality

A dedicated QA/QC officer and documented checks at every stage.

Local content

A 100% Congolese company that trains and employs local talent.

OUR SITES

Our teams at work, from site preparation to the finished structure.

PREPARATION

Tree felling and removal before works

SETTING OUT

String-line setting out and formwork

REINFORCEMENT

Mesh placed on spacers

REINFORCEMENT

Slabs formed and reinforced, ready to pour

CONCRETE

Cast-in-place kerbs

SERVICES

Trench, pipe and concrete block manhole

PAVING

Herringbone interlocking paving

FINISHES

Concrete parking with wheel stops

BUILDINGS

Roofing a prefabricated building

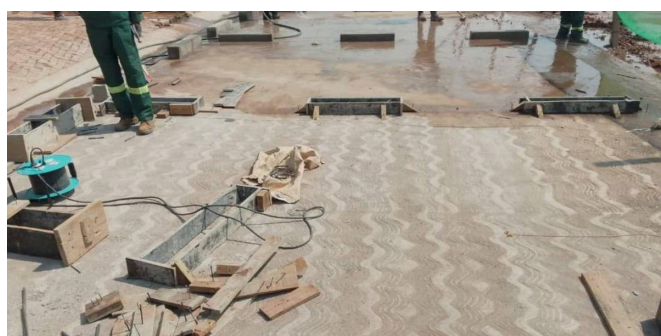

Every project follows four phases approved with the client: **study, preparation, execution, handover.**

1 → 4

LIST OF COMPLETED PROJECTS

Projects led by the founder of Tali Engineers while employed by the companies listed, and since 2022 within Tali Engineers. Reference contact details available on request.

PERIOD	PROJECT	CLIENT / COMPANY	VALUE
Recent	Smelter building design and foundations Consultant Site Engineer	Kamoa Copper SA Maendeleo SARL	–
Recent	Smelter main and small warehouses Consultant Project Manager	Kamoa Copper SA La Trêve SARLU	USD 2.4M
Recent	Workshops, gymnasium, parking, oil traps, fire hydrant system Senior Civil Engineer, design	Kamoa Copper SA Akata DRC	–
2019 – 2021	60 prefabricated apartments Project Manager	Lualaba Province EFEG SARL	USD 1.2M
2017 – 2019	260,000 m² TSF, drains, geomembrane liner and HDPE pipes Site Manager	MMG and Kipoi Geo Katanga	USD 750K
2014 – 2016	120 Ml/day wastewater treatment plant, Sebokeng Site Engineer	Rand Water SA CMC di Ravenna	–
2011 – 2014	60 Ml/day wastewater treatment plant, Westonaria Resident Engineer	Rand Water SA CSV Water Consulting	ZAR 120M
2009 – 2011	Gravel roads, drainage, weighbridges, truck parking Trainee Engineer	Eland Platinum Mine Kotze Construction	–

SAFETY FIRST

Think safe, work safe, then go home safe to your family after a successful working day.

Our commitment to every person on our sites.

Responsibilities

Fulfil our legal responsibilities to our workforce for health and safety at work.

Objectives

- Achieve the highest practicable level of safety
- Prevention takes precedence over expediency
- Full compliance with all statutory requirements

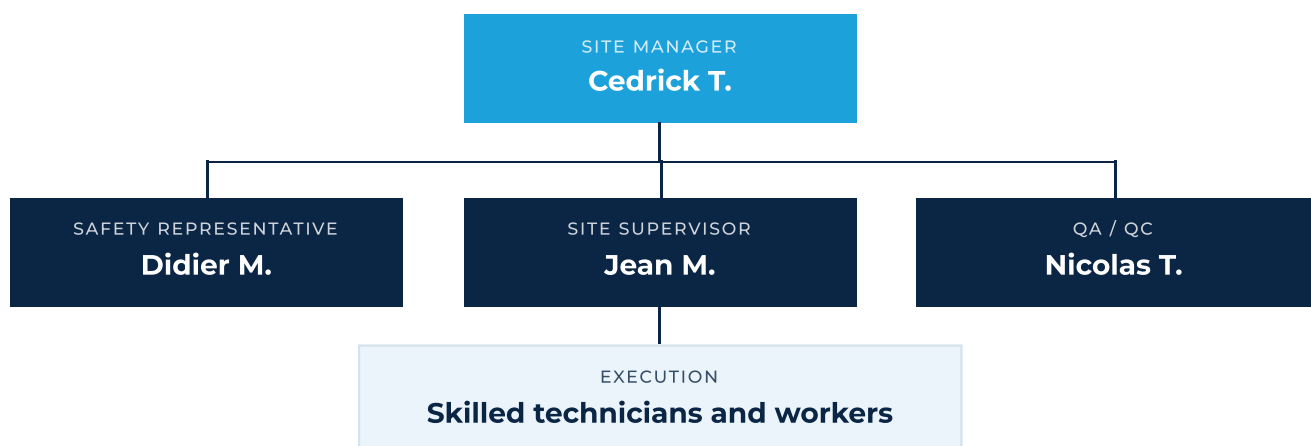

Employee obligations

- Report all unsafe conditions
- Do nothing likely to injure themselves or others

Site safety management

- Incident recording and registers
- Appointed safety and first aid representatives
- Minutes of safety meetings

OUR ORGANISATION

PLANT AND EQUIPMENT

The fleet we mobilise on a typical site.

NO.	EQUIPMENT	USE	QTY
01	TLB (backhoe loader)	Earthworks, trenching	1
02	Concrete mixer truck	Concrete transport	1
03	Tipper truck (hired)	Material transport	1
04	Roller compactor (hired)	Layer compaction	1
05	Total station	Surveying, setting out	1
06	Power float	Slab finishing	1
07	Poker vibrator	Concrete vibration	2
08	Whacker (rammer)	Local compaction	2
09	Generator	Site power	1
10	Water pump	Pumping, dewatering	1

TOTAL EQUIPMENT

12

CONTACT US

Tali Engineers is committed to building long-term, mutually beneficial relationships. Thank you for considering us for your next project. For any questions, ideas or quotation requests, please get in touch.
